

Solvay Campus Recruitment

BROCHURE 2018-2019

Solvay Brussels School of Economics and Management

Université Libre de Bruxelles

Updated version: September 2018

The Campus Recruitment

The Campus Recruitment aims to build bridges between students and companies through a wide range of recruiting events. Workshops, conferences, mock interviews or customised meetings are organised nearly every week. Once a year, the Solvay Career Days take place, gathering dozens of employers from different sectors; the Campus Recruitment thus allows numerous students to improve their knowledge of the job market, to create awareness of their talents and employability and find a challenging internship or a job to start their career.

THE TEAM

Our team is composed of three student coordinators, three student event managers, the Solvay Career Services' team and one Solvay Business Development Manager. We are all fully dedicated to cultivating quality relationships with our partners.

The School

The Solvay Brussels School of Economics and Management (SBS-EM) - ULB is a leading business school, widely referenced in Belgium and in Europe. It enjoys an enduring reputation of excellence in research and teaching fields, and offers students a broad range of under- and post-graduate programmes. Solvay students are particularly renowned for their entrepreneurial spirit, spurred by varied initiatives set up by the faculty or by the students themselves. The school cultivates sustainable links with the private, public and non-profit sectors with a teaching staff mixing high-level academics and experienced business leaders.

THE STUDENTS

Besides two bachelors programmes in Business Engineering and in Economics, the SBS-EM offers a wide range of undergraduate and post-graduate programmes as well as more advanced programmes. More than 500 students graduate every year.

Why become a partner?

- Enjoy a privileged and durable relationship with the School, whose staff will be glad to support your search for talents through their knowledge of SBS students
- Get priority over other companies in exposure and promotion with our students during the recruiting process and identify your talents
- Increase your visibility to our students and global community
- Have the opportunity to get directly in touch with the students through a variety of School and students' club events, as well as in class lectures
- Receive support for all your relations with the school
- Get to know our students better, their profile and their needs to improve your attractiveness as a company

Our Packages

Three types of partnership packages are offered by the School, from first contact with students up to a full, hand-in-hand relationship between the company and the school. By purchasing any of these, you will become an official SBS-EM partner.

* keep in mind that mailing purchased individually is limited to 2 e-mails; if you are willing to send more, a package is what you need!

** the Consulting Week is an event reserved for consulting companies and can be attended instead of the Jobfair

Our upcoming events

This year, the CR team will organise three macro events, gathering many different companies. You can find the date and content of these events below. Please note events are not all open to any kind of company.

OCTOBER

15th to 19th

Consulting Week

The Consulting week is a macro event that will gather several consulting companies, each of them organising a recruitment event on one day of the week. These events can be on- or off-campus, with or without selection of the students by the company.

Reserved for: consulting companies with at least 40 employees

Registration deadline: Sept. 10th

Contacts: Nicolas Reuter & Mats Saudemont

FEBRUARY

19th to 20th

Career Days

The Solvay Career Days are our already well-known Jobfair, taking place in late February. It gathers every year dozens of companies from numerous sectors and hundreds of students, allowing both to get in touch and build bridges.

Reserved for: any company interested in meeting Solvay students.

Registration deadline: Dec. 21st

Contact: any student coordinator

MARCH

19th to 20th

Fair for impact

This two-days event gathers non-profit sector companies i.e. NGOs, the public sector, start-ups and social entrepreneurs. The Fair for Impact allows students to meet business actors that can have a hard time affording the same visibility as bigger for-profit firms. Because of Solvay students' active entrepreneurial and social spirit, many are extremely keen on getting to know this kind of companies better.

Reserved for: start-ups, NGOs, public sector and social entrepreneurs

Registration deadline: Feb. 15th

Contact NGOs & public sector: Raphaël Silberberg

Contact companies: Mats Saudemont
