## FOREWORD

---

Inaugurated in 2013, the **International Centre for Innovation, Technology and Education Studies (iCite)** of the **Solvay Brussels School of Economics and Management** at Université Libre de Bruxelles, aims at better understanding the drivers of innovation and welfare in our society. It gathers academics who perform multidisciplinary research and training services. Theoretical and empirical analyses aim at better understanding the economics, management and history of innovation, knowledge generation and knowledge diffusion. Based on the outcomes of its research and on the expertise of its members, **iCite** also provides advices and recommendations to policy makers and business leaders.

Major research topics include cliometrics of Higher Education Institutions; interaction between market processes, organizational strategies and governance of universities and firms; analysis of National Innovation Systems; determinants of firms' research and innovation activities and their economic impact; efficiency of science and technology policies; effectiveness of intellectual property policies; entrepreneurial challenge; dynamics and funding of entrepreneurship and small businesses; impact of Information and Communication Technology on the organization and performance of firms and R&D; strategies pursued by organizations to continuously renew their competences and performance; outsourcing decisions of Multi National Enterprises and the internationalization of R&D.

Members of **iCite** have a large record of scientific publications in leading international journals. They are also unanimously recognized for their considerable experience in conducting studies for policy analysis and industry advice. **iCite** has been active in major contract research projects on behalf of the European Commission, the EPO, the OECD, and the Belgian Federal and Regional governments and institutions.
