

Main course

The courses provide a broad overview and analysis of the business environment in the European Union. The main emphasis is put on **performance management** and **geopolitical concerns**. The students will be encouraged to take initiatives and prepare **strategic** and **performance driven planning of organizations**. The Solvay Summer School provides a certificate of **3 ECTS credits** to those who will attend at least 85% of the 20 hours seminars and pass the final examination.

Our participants will have the opportunity to choose a tailored option that aims to provide a thorough analysis on specific topics:

Entrepreneurship and Innovation.

The Entrepreneurship programme aims to equip students who embrace the entrepreneurial mindset with perspectives on management practices and leadership. With a focus on **Business Models Canvas** and **soft skills**, this programme has been designed to foster the ability to think like an entrepreneur.

Business Law

The programme focuses on gaining a global understanding of the challenges faced by the European Union in the 21st century with a legal perspective on **international relations**, **geopolitical policies** and **innovation law** through the third industrial revolution.

Finance

The Finance field stresses the importance of understanding the impact of decisions on the financial health of professional activities. The application of quantitative **methods and analytical skills will enable you to get a deep understanding of financial portfolio management.**

Programme Duration

The 2023 Edition takes place from **8th to 17th August 2025**. Classes begin on Monday morning and end on Thursday afternoon, followed by the final examination on Saturday.
